To the Rhodes Scholarship Selection Committee,

It is with great pleasure that I write this letter in support of Ahmed Farag Fekry's application for the Rhodes Global Scholarship.

I have had the privilege of teaching Ahmed during his undergraduate studies in the Computer Science program at Arab Open University Egypt. Throughout the course, Ahmed stood out as one of the most academically capable, disciplined, and intellectually curious students I have encountered.

Ahmed has consistently demonstrated excellence, maintaining a GPA of 3.85 out of 4.0 a reflection of his strong work ethic and genuine interest in the field. He engages thoughtfully in class discussions, asks insightful questions, and takes initiative in applying knowledge beyond the textbook. His final year project – focused on using deep learning for bone fracture detection via X-ray analysis – reflects both technical skill and social responsibility, aiming to support medical diagnostics and improve accessibility.

Beyond academics, Ahmed has shown maturity, leadership potential, and a clear sense of purpose. He's an excellent communicator, collaborates effectively with peers, and consistently displays professionalism and integrity in all his interactions. I am confident that he will thrive in a challenging academic environment like Oxford and will contribute meaningfully to the Rhodes Scholar community.

I wholeheartedly recommend Ahmed Farag Fekry for the Rhodes Scholarship. Please feel free to contact me should you require any additional information.

Sincerely,

[Space for Signature]

Dr. Hala Abbas
